Provision and the Continuum of Support

Continuum of Support

The model of assessment and intervention, as practised in Coláiste Muire, is underpinned by recognition that special educational needs occur along a continuum, from mild to severe and from transient to long term. Our response to the needs of students is organised according to NEPS's Continuum of Support.

Student Support Plans (SSP)

A Student Support Plan is devised for students with Special Education needs. All students involved in SEN support will have a learning plan devised by their learning support teacher, with students with more complex needs having a more detailed Student Support Plan.

The Student Support Plan involves:

- Gathering Information: Personal/ Background details.
- Educational details (primary school details/assessment and learning support details)
- Categorisation of need (assessment reports/ information attained from parents)
- General profile based on formal/informal assessment.
- SEN provision
- Prioritising need as it is not practical or possible to address all areas of need at the same time
- Setting targets for each priority learning need:
- Identifying the strategies and resources required:
- Relevant documentation
- Setting the date for review: A review occurs each academic year. However it may occur more often dependent on student progress and circumstances

These SSP's aim to include the most relevant information in a clear and concise manner so that it functions practically as a working document.

Enrolment

The schools admissions policy outlines the procedures with regard to the enrolment of students with SEN (See Appendix 1).

PROVISION FOR STUDENTS WITH KNOWN AND DOCUMENTED NEEDS

Coláiste Muire Special Educational Needs Policy - A Whole School Approach

Transfer from Primary School

The transfer of information from primary level to post-primary level is vital to the successful support of students with SEN.

During the first term of the school year parents of incoming first years are invited to attend an information meeting outlining practical supports, structure of learning support and resource teaching hours, pastoral care structures and information regarding Reasonable Accommodations for Certificate Exams (RACE).

The Special Needs Coordinator also will:

- Visit or contact the feeder Primary Schools to collect up-to-date information.
- Liaise with primary school and parents of students with complex needs.
- Establish communication with the primary school resource/ learning support teacher.

Once accepted to Coláiste Muire:

- All incoming first year students take a Cognitive Ability Test; CAT 4. These tests can also be used to identify strengths and needs of incoming students with SEN. This data is used to help identify students who may need additional support, including exceptionally able students.
- All first year students will undergo standardised testing in literacy using the PPAD-E. Individual parental permission is not sought for this test as it is part of our universal testing programme.
- Numeracy testing is conducted for students where there is an identified concern that is previously undocumented.
- At the beginning of each academic year all students on the SEN Register are reviewed individually in terms of level of support needed and curriculum load.

Students transferring into other Year Groups

When a student is accepted into a year group other than First Year, information is sought from their previous school (Educational Psychological report, School reports, attendance, etc) This is the responsibility of the Principal/ Deputy Principal. Any relevant information is then passed to the Year Head and the Special Needs Co-ordinator.

PROVISION FOR STUDENTS WITH EMERGING NEEDS

For students with emerging needs, including the exceptionally able, the concern may have been identified through the whole school screening and monitoring systems (CAT4, in class assessment, informal observation, parental concern). Teachers are asked to complete a referral form for students who they have a concern about that focuses on the student's behaviour, academic performance, homework etc. Some students will need further individual or diagnostic testing to identify the nature of their needs (both learning and behavioural). Parental consent is obtained before diagnostic tests are administered on an individual basis.

Coláiste Muire Special Educational Needs Policy - A Whole School Approach

Teachers are also encouraged to refer to students' CAT 4 results to determine the student's areas of strength and their needs and link with at least two other subject teachers before completing a referral form.

Models of SEN provision

In assessing and deciding which students need to be in receipt of supplementary teaching and which students may benefit from support within the mainstream context the following options are considered:

- Curricular differentiation
- Curricular reduction (reduced load) - A student with SEN who experiences difficulty in coping with the breadth of the current curriculum is permitted to 'drop' a subject. This occurs only after all avenues have been exhausted. A consultation between the parents/ guardian and guidance teacher is also necessary. Parents must sign a consent form giving permission for a reduced subject load.
- Team Teaching/Co-operative Teaching
- In-class support/Differentiation
- Inclusion of SNA in specific classes
- Small group withdrawal
- Individual withdrawal
- Organisation support

The period of intervention recommended for each student is dependent on the nature and extent of their individual need. The duration of provision is varied and is reviewed throughout the intervention. There are cases where support is needed on a short-term basis, after which the student is in a position to recommence with the regular curriculum.

Resources

The school is allocated a 'basket' of learning support hours each academic year through the General Allocation Model as per Department of Education Guidelines. These are allocated to students based on the identified needs of students. The level of support a student may receive can vary within a school year and from year to year depending on the resources available and the level of identified needs of its student body.

Reasonable Accommodations for State and In House Examinations (RACE)

Coláiste Muire Special Educational Needs Policy - A Whole School Approach

Applications are made by the SEN Coordinator for RACE provision for students with SEN sitting a Junior Certificate or Leaving Certificate Examination. Information relating to RACE is provided to parents on an annual basis.

Exam accommodations are provided as part of a continuum of support for a student whose needs are known to and already supported by the school.

The following are the range of accommodations available to the students which are applied for as per circular criteria. Accommodations are granted by The State Examinations Commission. The State Exams Commission SEC operates a devolved model at both Junior and Leaving Cert Level. The school will make application for relevant accommodations for students who meet the criteria as laid down by the SEC at Junior Cycle and these accommodations can be reactivated for Leaving Cert, with the school being satisfied that the student still has a need for the accommodation. Further details are available at www.examinations.ie.

Where resources permit and when deemed appropriate, readers, scribes and other accommodations are available to students who qualify for such accommodations at mock exams and other school assessments. Students in non-exam years sitting a differentiated test will have that noted on their report. Specialised reports can be created where a student with complex needs has sat many differentiated exams during in-house assessments.

COMMUNICATION

SEN Team

- The SEN Coordinator and teachers of the Learning Support and Resource department aim to meet formally at a weekly scheduled meeting. Informal meetings occur on a daily basis.
- Members of the SEN team can meet mainstream teachers formally or informally. There may be formal meetings at the beginning of the year between the mainstream teachers and SEN team with regards to incoming first year students with SEN.
- The SEN Team aims to communicate with each other as much as possible through email using the school systems Office 365 and Microsoft Teams.

Mainstream Teachers

- At the beginning of each school year, the SEN Coordinator updates a register of information focusing on the incoming first years with SEN. This information is shared using Office 365, and all teachers are made aware of its existence at the start-of-year staff meeting and encouraged to consult it regularly.
- SEN is on the agenda at every staff meeting.
- Information is also communicated via the year head and student support structures such as the Pastoral Care Team.
- At the end of each year, the subject teacher completes a transfer of student form for each student with SEN detailing interventions that work for the student, assessment of course work, homework, behaviour and attendance. Completion and storage of

Coláiste Muire Special Educational Needs Policy - A Whole School Approach

these forms is the responsibility of each subject department. The forms are passed on to new teachers of the student in each particular subject area.

Parents

Communication with parents is achieved in the following manner:

- School Open Day
- Parent-Teacher Meetings
- Emails
- Student Journal
- Telephone Calls
- Meetings involving external agencies
- Meetings with the SEN Coordinator and Principal/Guidance Counsellor/Year Head where relevant.

Record-Keeping

A full record of psychological reports, other reports and records of meetings are kept in the individual students file in the SEN co-ordinator's classroom/office in a locked cabinet. All information is managed in accordance with the directives of both the Freedom of Information and Data Protection Acts. Student records are destroyed after seven years.

Exemptions from Irish

- Incoming first years with Irish exemptions are noted.
- Certificates of exemption from the study of Irish must be submitted with the enrolment application.
- The guidelines set down by the Department of Education and Science will be strictly adhered to (Circular 0055/2022). There is a strict protocol for the processing of requests for consideration for an Irish Exemption and exemptions will only be granted where a student meets the relevant criteria following an evidence based intervention.
- Where possible, withdrawal for Learning Support/ Resource is arranged for students with SENs, who do not study Irish, during Irish time. This is not guaranteed and is limited by timetable restrictions and staff availability.

Appendices

Appendix 1- Enrolment Policy

ENROLMENT OF STUDENTS WITH SPECIAL NEEDS

Colaiste Muire welcomes students with special needs and will use the financial and human resources provided by the Department of Education and Skills to make reasonable accommodation for students with disabilities or special educational needs up to a nominal cost so that these students are free to participate in the life in the school in so far as it is reasonably practicable.

While recognising and fully supporting parents' rights to have a school of their choice for their children, the school's ability to accept students with particular needs is dependent on the supply or resources, suitable to the needs of the individual student, being supplied by the Department of Education and Skills.

Colaiste Muire welcomes applications from students with special educational needs unless the nature and degree of these needs is such that to enrol the student would be inconsistent with both the best interests of the student concerned and the effective provision of education for the other students with whom the student concerned is to be educated.

The Board of Management must be made aware of any special needs as early as possible, so that these needs can be assessed and addressed where possible.

Parents are requested to outline the details of a child's special educational needs on the application form.

The Board of Management, having gathered all relevant information and professional documentation, assesses how the needs of these students can be met.

Contact will be made with the National Council for Special Educational Needs regarding special needs resources to which the student may be entitled.

The Principal may request a meeting with the parents of the student to discuss the application and the student's needs.

The parent of the student may request a meeting with the Principal to discuss the student's educational or other needs.

N.B. It may take some time for the Department of Education and Skills to process such applications. Parents are strongly advised to inform the school as early as possible and discuss their particular situation well in advance of making an application.

As soon as is practicable, but not later than 21 days, after a parent/guardian has provided all the relevant information, the Board of Management shall make a decision in respect of the application concerned and inform the parents/guardians in writing thereof.
(Education Welfare Act – Section 19 (3))

Coláiste Muire Special Educational Needs Policy - A Whole School Approach

The Board of Management will therefore:

- Request that the school Principal meet the parents/guardians to discuss the student's needs and the school's capability to meet those needs.
- Request a copy of the student's medical/psychological report/individual educational report if available and/or
- Request immediate assessment.
- Apply, prior to enrolment, to the D.E.S. for the resources necessary to meet the needs of the student e.g. a special needs assistant, specialised equipment or furniture, learning support, transport etc.
